

# Indiana Medicaid

## What is Medicaid?

Medicaid is a health insurance program. The program is funded by the state and federal government. It pays for necessary medical coverage for low income citizens. Several programs are part of Medicaid in Indiana. Some are Hoosier Healthwise Packages A and C, Hoosier Care Connect (Anthem, MHS, United Healthcare), and M.E.D. Works. For these Medicaid programs, eligibility is determined, in part, by income. These income limits include income before taxes and not take-home pay. If you are not otherwise eligible for Medicaid, a 5 percent income disregard will be applied. It is a good idea to learn about the different programs. Your child or family member may qualify for different programs at different times.
