ipmg
Case Management

A leading provider of **person-centered Case Management services** to Individuals receiving the following **Medicaid Waiver programs**.

Community Integration and Habilitation (CIH) & Family Supports (FS) Waivers

These two Waivers are Medicaid Home and Community-Based Services waiver programs for children and adults with intellectual and developmental disabilities. Home and Community-Based Medicaid Waivers provide a range of services tailored to each person's specific needs, goals, and preferences aimed at supporting them to live successfully and independently in their homes and communities.

Health and Wellness (H&W) & Traumatic Brain Injury (TBI) Waivers

The H&W Waiver offers an alternative to nursing facility admission for Individuals 59 and younger with a disability, helping them stay in their homes. It also aids those in nursing facilities to return to community settings like their homes, apartments, assisted living, or adult family care. The TBI Waiver ensures Individuals with traumatic brain injuries receive home and community-based services tailored to their needs and the needs of their families, empowering them to make choices, maintain autonomy, and improve their quality of life.

Empowering & Improving Lives Through Comprehensive Support
